**DETAILED ACTION**

***The finality of the application is withdrawn in view of the following rejections.***

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-11,21,22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The targets claimed in claims 1-11, 21 and 22 are directed to printed matter that is not used in combination with a device/apparatus or machine. The MPEP 706.03(a) recites: For example, a mere arrangement of printed matter, though seemingly a "manufacture," is rejected as not being within the statutory classes. See *In re Miller*, 418 F.2d 1392, 164

USPQ 46 (CCPA 1969); *Ex parte Gwinn*, 112 USPQ 439 (Bd. App. 1955); and *In re Jones*, 373 F.2d 1007, 153 USPQ 77 (CCPA 1967).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Ginsberg (US 4,365,873).

Regarding claims 1-3, Ginsburg discloses at least four targets (see figure 1), each target including a plurality of grating patches whose contrast varies sinusoidally (see abstract) for different spatial frequencies. Each target having an unique combination of spatial frequencies (see figure 1).

***Allowable Subject Matter***

Claims 12-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Applicant's arguments filed on 8/21/07, at page 3, were found persuasive.
